

**We can replace your property,
but we can't replace you or your family...**

**Woodburners are great for ambiance and pocketbook.
There is also greater risk of home fire.**

***Use this handy reminder to stay on top of
maintenance and safety items...***

- Frequently check the unit and chimney flues.
- Inspect the chimney from the roof, using a flashlight to look for obstructions or damage.
- Check stovepipes for creosote build-up; have the chimney and stove professionally cleaned as needed.
- Burn only seasoned wood, preferably at least 2 years old.
- Keep children away from the stove to prevent burns or risk of clothing ignition.
- Keep combustible materials away to avoid risk of ignition.
- Maintain a multi-purpose fire extinguisher near the stove; check the date on the extinguisher and keep it up to date.
- Check and maintain smoke detectors.

Follow us...

Fremont Insurance has been insuring and investing exclusively in Michigan since 1876. By making this state our only place of business, we know the local geography, climate, demographics, and lifestyle in ways that national insurers can't.

Whether you're looking for home, auto, commercial, farm, or marine coverage, we can create a program tailored to your needs.

Ask your independent agent today to find out more about our exceptional pricing, dynamic products, and unparalleled service.

As your independent insurance agent, we're front and center for you.
